I am a polite, conscientious and enthusiastic young person who is seeking to gain valuable experience in the workplace. I am reliable and eager to learn and gain new skills. I am available to work on a full time basis.

Previous Employment Experience:

Junior Web Developer at Freetimers LTD (October 2021-January 2022)

I have a brief experience of working in web development, as a junior developer. My main responsibilities involved working on projects with PHP, CMS & WordPress. I was also responsible for testing web-based applications and rectifying any issues that have been discovered.

Junior Support Engineer at Patchworks (May 2022-September 2022)

In this role, I was mainly responsible for helping clients, troubleshoot technical challenges that they were experiencing with their system, and ensuring that system functionality operated as intended. I would also have to host calls with clients to keep them posted on open queries.

Junior Web (Laravel Developer) at Marketing Position (March 2023-June 2023)

In my latest role, I was mainly responsible for implementing HTML,CSS,PHP functionality on commercial websites such as www.betterwaste.co.uk. In this role I was trained to utilize frontend and backend frameworks, the frontend frameworks were Tailwind and Bootstrap the backend framework was Laravel.

Summary of my Key Skills:

- Enthusiastic- keen to work and learn new skills;
- Good communication skills with colleagues and members of the public;
- Well organised- I am good at working to and meeting deadlines;
- Know several different programming languages (listed below);
- Politeness and approachability.
- Can program in the following languages- HTML & CSS, JAVASCRIPT, PHP, SQL, JAVA, PYTHON, BASH SCRIPTING;

Qualifications:

I currently have 5 GCSE's at grade C or above in the following subjects: Media Studies (Grade B), ICT (C, C) Science (C, C). I also obtained the following GSCE grades: Mathematics (D), English (E), Religious Studies (E) and Global Citizenship (E). I achieved these qualifications at Northampton Academy in 2010. After I completed my studies at Secondary School, I attended Northampton college and obtained a Level BTEC National Diploma (Level 3) with a grade of Merit & Pass. Once my studies were completed at College, I then attended the University of Northampton to study computing I graduated with a HND with a grade of Merit in 2019.

What have I learnt at university?

On my computing course I have learnt basic and advanced programming in languages that I have listed above. I have also learnt about how a programs functionality can be utilized and applied in a business sense the programming language I enjoy the most is PHP. At university I also obtained interpersonal skills which will help

me communicate and articulate myself in a working environment. At university I have made friends with people who have similar interests to me and have learnt how to balance social activities with my studies.
